

# itelligent-i Carbon Reduction Plan for net zero 2050

Created by Arvid Straates

Release date 07/11/2021

This document contains the Carbon Reduction Plan for T.E.W. Software Solutions Ltd t/a itelligent-i. The Carbon Reduction Plan outlines how itelligent-i is working towards becoming net zero by 2050.

## Table of Contents

Introduction .....	3
Commitment .....	3
Baseline Emissions Footprint .....	3
Emissions reduction targets .....	4
Carbon Reduction Projects .....	5
Declaration and Sign Off .....	5

## Introduction

### Commitment

Itelligent-I (iii) are committed to halving greenhouse gas emissions before 2030, achieving net zero by 2050 and will be disclosing emissions annually.

### Baseline Emissions Footprint

Itelligent-I have determined its Baseline emissions of greenhouse gases that have been produced in the past and were produced prior to the introduction of our strategic plan to reduce emissions. These Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2020</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
<b>Baseline year emissions: 2020</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	There are no emissions that are direct greenhouse gas emissions that occur from sources that are controlled or owned by itelligent-i
<b>Scope 2</b>	<b>0.07</b>
<b>Scope 3</b>	<b>17.5</b>
<b>Total Emissions</b>	<b>18.2</b>

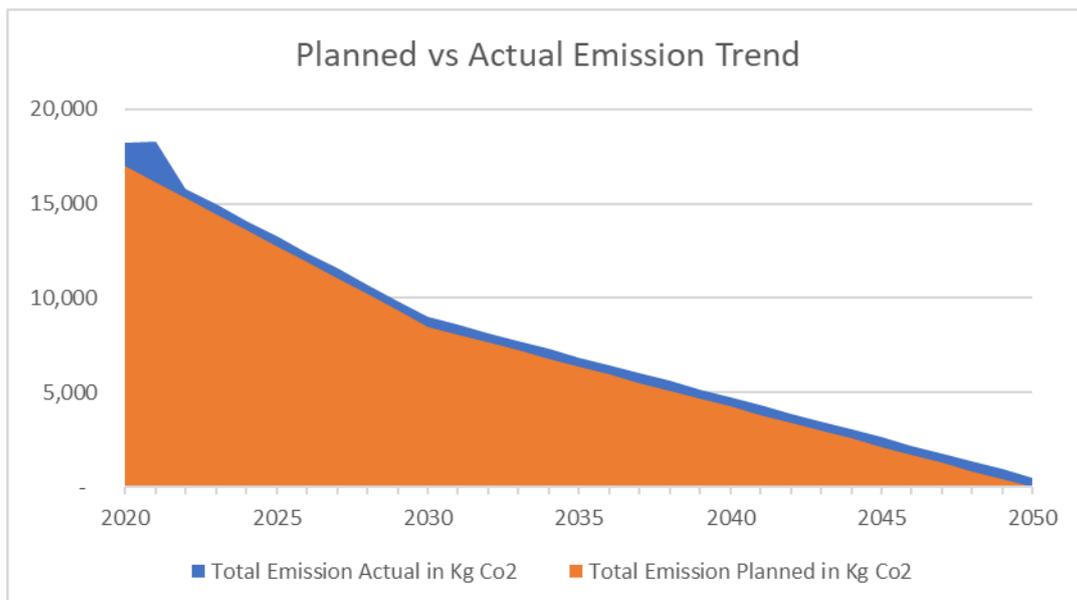

## Current Emissions Reporting

Reporting Year: 2020	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	There are no emissions that are direct greenhouse gas emissions that occur from sources that are controlled or owned by itelligent-i
Scope 2	0.07
Scope 3 (Included categories 1,4, 5, 6 & 7)	17.5
<b>Total Emissions</b>	<b>18.2</b>

## Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next 8 years to 8.5 tCO<sub>2</sub>e by 2030. This is a reduction of 50%.

## Carbon Reduction Projects

Carbon Reduction Initiative in progress.

The following environmental management measures and projects have been implemented since the 2020 baseline. Working from home is the standard practice for our associates and customer engagements happen by default remotely via Microsoft Teams meetings and collaboration.

The carbon emission reduction that is expected to be achieved by this scheme equates to 1 tCO<sub>2</sub>e, a 5% reduction against the 2020 baseline and the measures will be in effect when performing the contract.

In the future we hope to implement further measures such as a change over to a green energy supply contract for our office electricity supply.

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

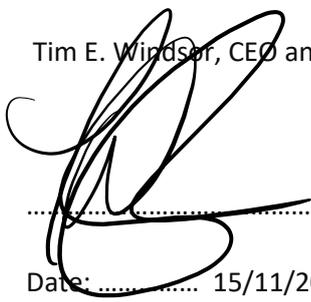

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of the itelligent-i:

Mr.

Tim E. Windsor, CEO and Founder
